

# Warmy nut chestnut bug eco-extract

Ellagic acid

Vescalagin

## Dual soothing and anti-inflammatory action

INCI: Water, Glycerin, Castanea sativa shell extract

### ACTION

Our ingredient is a natural inhibitor of the expression of inflammation genes, in particular pro-inflammatory cytokines, thus reducing the oxidative stress of skin cells. Coupled with a direct action on Psoriasisin, our ingredient helps soothe sensitive and damaged skin.

### CARACTERISTICS

Solubility: Soluble in water

Aspect: Brown

Total polyphenols: 15% - 20%

Formulation: 69% Water, 30% Glycerin,  
1% Chestnut bug extract

Recommended formulation: 1% - 5%

pH range use: 3 - 9

### SUSTAINABILITY

Chemical solvent free

Palm oil free

Energy consumption: 1.24 kWh/kg

French sourcing

By-product

Naturaless rate: 94%

Organic chestnut bug

### Maison SEVESSENCE

Ideal for a cleansing and purifying facial care, this exfoliator can be recognized by its thick texture, its easy grip and its bewitching fragrance. Enriched with apricot kernel and Adiroba powder, it gently exfoliates the skin, releases impurities and leaves a satiny touch. At its contact, beauty is sublimated.

Parfum Sevensence : Woody Ginger (0.3%). This fragrance with its "woody ginger" trail is a spicy, enveloping and charismatic scent that offers each person a height to apprehend life differently.

Emulsion Key Ingredients : Liquid extract of chestnut bug (5%), Aloe vera-based active ingredient.
