

WaveXtracts®

BIODESIGNED PLANT EXTRACTS

NATURE - INSPIRED EXCELLENCE

*Antofenol WaveXtracts®
embodies the essence
of Antofenol Hygredients,
a new generation
of biodesigned natural extracts
that blend innovation,
naturalness and performance.*

HYDROSSENCES®

OUR COLLECTION
OF AROMATIC WATERS
DESIGNED TO INFUSE
FORMULATIONS
WITH DELICATE,
SENSORY ELEGANCE.

Crafted through
hyperfrequency distillation,
HYDROSSENCES® are rich
in volatile aromatic molecules,
combining freshness and intensity
while perfectly capturing
the original scent of fruits or plants.

HYDROSSENCES® offer
a delicate natural fragrance
to cosmetic formulations
and boost the content of
organic-certified ingredients.

Ideal for use in natural perfumes,
facial tonics, and care waters,
HYDROSSENCES® also serve
as an effective substitute
for water in gels, emulsions,
and aqueous formulas.

BIOSENCES®

FEATURING
BOTANICAL EXTRACTS
AND NATIVE WATERS
DELIVERING POTENT
AND NATURAL SOLUTIONS
FOR ALL BEAUTY CARE.

BIOSENCES® Extracts
are concentrated in plant
bioactives to deliver effective
and natural cosmetic solutions.

Our advanced extraction process
ensures optimal preservation
of the plant's original potency
and benefits.

BIOSENCES® Native Waters are
naturally extracted from plants
without chemical solvents,
preserving bioactive molecules
with skin-beneficial properties.

Their delicate natural scent
enhances cosmetic products
with a refined touch.

ANTOFENOL WAVEXTRACTS® | THE ESSENCE OF NATURE, PERFECTED.

Our patented hyperfrequency eco-extraction process
unlocks the full power of nature to create natural, effective, and eco-responsible ingredients:

- Free from chemical solvents and adaptable to all plant types.
- Preserving active compounds and authentic aromatic freshness.
- Promoting sustainability through eco-conscious processes and by-product valorization.
