

TOMATO BOTANICAL EXTRACT

INCI: *SOLANUM LICOPERSICUM* (TOMATO) EXTRACT

We developed this extract by valorizing green tomatoes, a by-product of the tomato industry. To meet agro-industry standards, producers harvest tomatoes at an early stage, keeping only the ripe red ones.

→ Using its patented hyperfrequency eco-extraction technology, Antofenol transforms discarded green tomatoes into high-value natural extracts, promoting sustainability and reducing waste.

BIOCHEMICAL COMPOSITION

- Rich in polyphenol and organic acids
- Chlorogenic acid
- Mallic acid
- Rutin
- Phenylalanine
- Adenosine

TOMATO BOTANICAL EXTRACT

INCI: *SOLANUM LICOPERSICUM* (TOMATO) EXTRACT

REGULATION

| | |
|--|--|
| INCI | <i>Solanum Lycopersicum</i> (tomato) extract |
| Origin | France, organic by-product |
| Preservation | Preservative free |
| Certification | Cosmos certification on demand |
| Natural index origin (ISO 16128) | 100.0 % |

TECHNICAL

| | |
|--------------------------|----------------------|
| Appearance | Limpid yellow liquid |
| Solubility | Water soluble |
| Recommended dosage | 1.0 % - 10.0 % |

APPLICATIONS

- Based on literature review: effects on hair, moisturizing and soothing effect, purifying and sebo regulatory properties, brightening and evening effect
