

STRAWBERRY AROMATIC WATER

INCI: *FRAGARIA ANANASSA* (STRAWBERRY) FRUIT EXTRACT

Antofenol's Hydrossences® Strawberry Aromatic Water embodies the vibrant freshness of this ultimate gourmet fruit, distilling this essence that evoke the invigorating spirit of spring.

→ The molecule found is linalool for floral and slightly spicy notes.

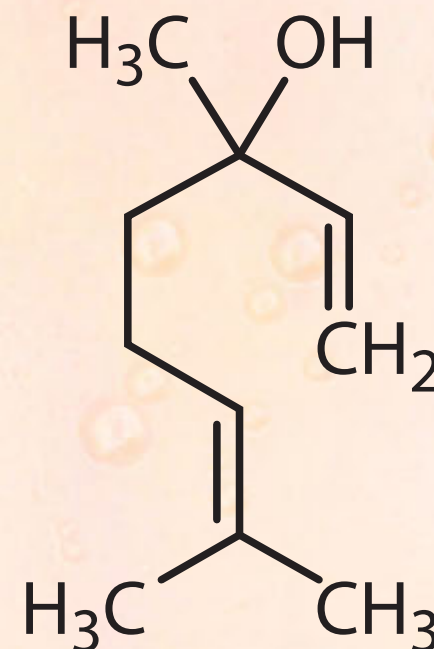

LINALOOL: A NATURAL COSMETIC GEM

Linalool is a versatile monoterpene found in fruits like strawberry and plants like lavender and thyme.

It enhances cosmetics with its floral scent and offers anti-inflammatory, antiseptic, and antimicrobial benefits. Its antioxidant properties protect the skin from environmental damage and support anti-aging by improving cell cohesion and longevity.

Derived from natural sources, linalool is a sustainable choice for eco-friendly formulations, often used in solid shampoos and skincare products to reduce waste.

While generally safe, it is listed as a fragrance allergen, emphasizing the importance of natural sourcing. Its calming effects also make it valuable in aromatherapy.

STRAWBERRY AROMATIC WATER

INCI: *FRAGARIA ANANASSA* (STRAWBERRY) FRUIT EXTRACT

REGULATION

INCI *Fragaria Ananassa* (strawberry) fruit extract
Origin EU, organic
Preservation Preservative free
Certification Cosmos certification on demand
Natural index origin (ISO 16128) 100.0 %

TECHNICAL

Appearance Limpid cristal clear liquid
Solubility Water soluble
Recommended dosage 1.0 % - 60.0 %

APPLICATIONS

- Replacement of perfume and water in cosmetic formulation
- Based on litterature review: soothing activity, relaxing effect, antimicrobial
